LEARNMATE – AI STUDYBUDDY

8. Project Demonstration Phase

Demonstrating the complete user journey from authentication to AI-powered study resources.

Date	21-09-26
Team ID	SWTID-2026-5714
Project Name	LearnMate - AI StudyBuddy
Maximum marks	4 Marks

Generates multiple-choice questions from the uploaded study material to help users assess their understanding.

Endpoint:

POST /api/ai/quiz

7. Generate AI Study Plan

Creates a personalized study schedule based on the user's learning goals and available study time.

Endpoint:

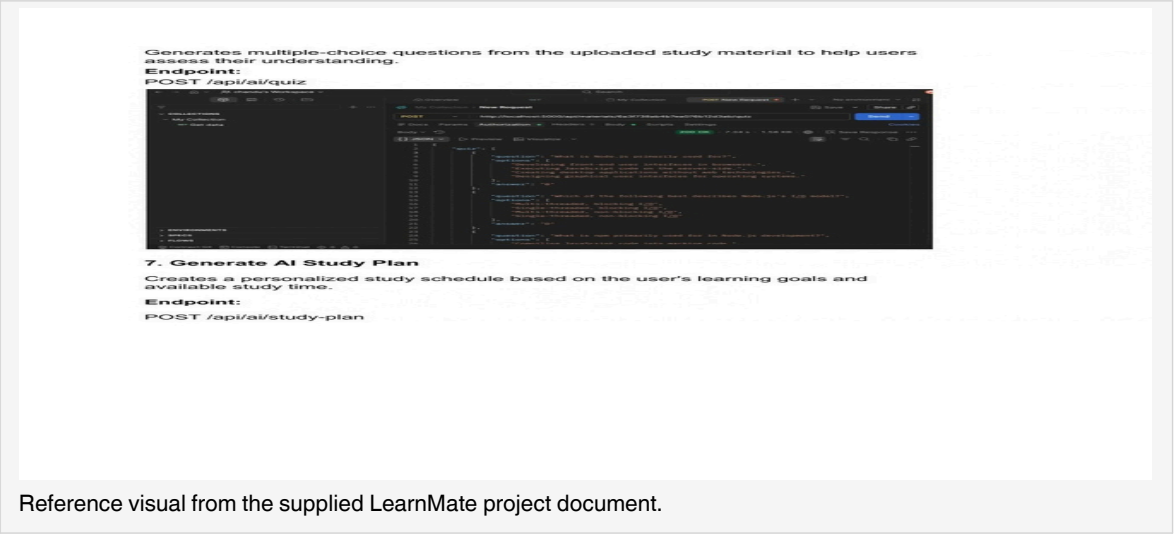

POST /api/ai/study-plan

AI-powered learning assistance and smart study support platform

Demonstration Flow

Key Points

- Register or log in to the application.
- Complete JWT-based authentication and enter the dashboard.
- Upload study material through the material API.
- Generate an AI summary from the uploaded material.
- Generate flashcards for revision.

Reference visual from the supplied LearnMate project document.

- Generate a multiple-choice quiz to assess understanding.
- Generate a personalized study plan based on learning goals and available study time.
- View and save generated resources for future reference.

Key Demonstration APIs

Key Points

- POST /api/auth/register – user registration.
- POST /api/auth/login – authentication and JWT token generation.
- POST /api/material/upload – study material upload.
- POST /api/materials/:id/summarize – AI summary generation.
- POST /api/ai/flashcards – flashcard generation.
- POST /api/ai/quiz – quiz generation.
- POST /api/ai/study-plan – personalized study plan generation.

Expected Demonstration

Key Points

- Show how one centralized platform converts study content into summaries, flashcards, quizzes and study plans while using secure REST APIs and authenticated access.
